Subject: Rescheduling ammonia criteria implementation call

All,

Winter strikes again! It looks like we are going to have to postpone the call originally set for 2:00 Eastern this afternoon. You will be hearing from Chris Hornback about rescheduling the call. We would like to get the call back on everyone's calendars as soon as possible.

Thanks for your continuing interest, Alan

On Feb 20, 2014, at 3:17 PM, Alan Hais <alan.hais@verizon.net> wrote:

We now have a call scheduled for Monday, March 3 at 2:00 Eastern. Please use the same call-in number: 877-868-6863 and 439067#.

For the call I think it would be good for all of us to be ready to discuss the following:

- Your organization's interests and objectives in pursuing a collaborative effort to facilitate implementation of the ammonia criteria. I realize that this may be somewhat redundant, but would be useful to get everyone up to speed - particularly if EPA is on the line
- What you see as the objectives and expected outcomes for a stakeholders meeting
- Suggestions for participants at a stakeholders meeting, including how many would be a workable number of participants
- Stakeholder meeting logistics: timing, length, facilitation, costs and possible sources of funds. [Chris already suggested Washington, which I think makes great sense.]

Thanks again and I very much look forward to working together on this effort,

Alan
